Alderman Agne stated he would not support the current request until a planting plan is submitted that includes dense planting. Alderman Huch stated he will not support the rezoning until a more definitive use for the property is presented to the City. Alderman Roessler expressed concern the residents were unaware of the rezoning request prior to the Committee of the Whole meeting and added the lot currently serves as a natural buffer between the commercial and residential properties. Mr. Dunakey explained the excavation that would need to transpire in order to develop the property to meet the grade of the current commercial property. Alderman Roessler questioned the need to rush any action by the Council without knowing the potential use for the property.
